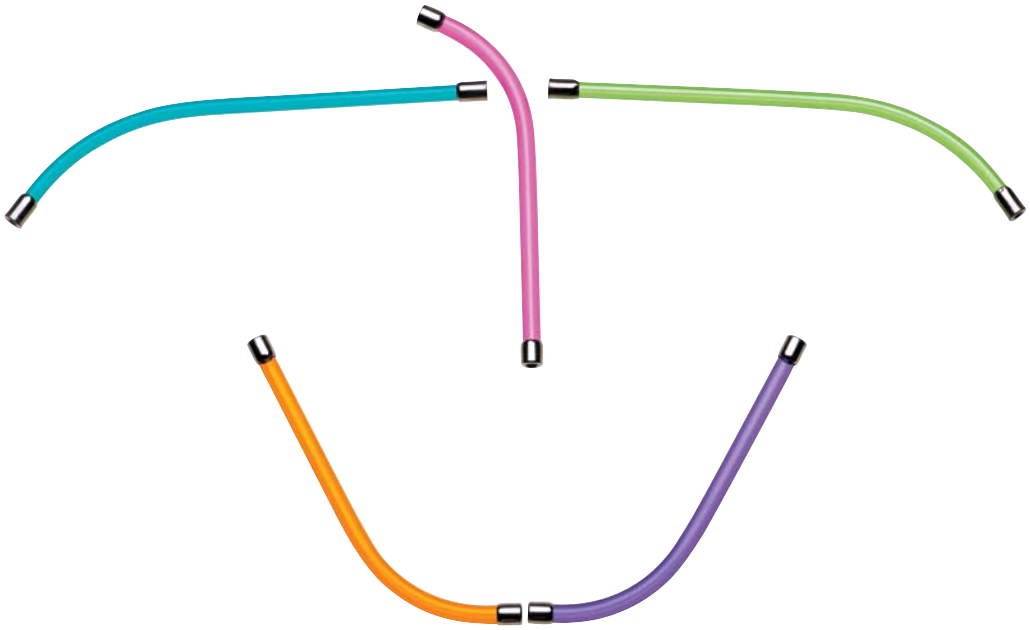
AttiTube™



Put a little color in your smile.

Introducing Plantronics AttiTube™ color voice tubes. Brighten up your headset with *Outrageous Orange, Passion Pink, Serene Green, Peaceful Purple, and Cool Blue* color voice tubes.

They are available in different sizes and colors to fit all Plantronics voice tube products. And, since your voice tube should be replaced every 6-9 months, you can change the color of your smile frequently. Use the colors as a replacement reminder, to individualize teams or just be yourself.
