PRODUCT BRIEF

HP Poly Focus 6 Series

Bluetooth® Stereo Wireless Headsets

Create a Focus Zone

Hear and be heard clearly wherever you work. Four noise-cancelling mics with enhanced noise reduction[1] and Hybrid Active Noise Cancellation (ANC) block distractions to keep calls clear, while spatial audio creates an immersive experience for music and media.

Lightweight Comfortable Fit

Look sharp and stay comfortable, in meetings or on the move. A slim design with a hideaway boom creates a clean, modern look, while soft cushions and an ergonomic headband support all-day wear. Lightweight and easy to take wherever work happens.

A foldable design[5] makes it easy to pack up and go—whether you're commuting, traveling, or switching between home and office.

Take on the day. Uninterrupted

Experience a headset that's built to keep up. Up to 25 hours[2] of talk time, generous wireless range, and intuitive controls give you the freedom to move and the confidence to stay connected from the first call to the last.

Durable Design. Personalize Your Fit.

Extend headset life with replaceable batteries and ear cushions, sold separately. Customize your headset the way you want with optional over-the-ear cushions, sold separately, for even more immersive listening.
